

Completed Items

The following requested updates have been completed and are ready for review.

COMPLETED WORK

DONE

Comma formatting was added for number fields to make millions, prices, and month values easier to read.

DONE

The Special page is visible to all users. Only admin and sub-admin users can edit Special units.

DONE

Newly created units now appear faster in unit pages after creation.

DONE

A smart paste field was added to create units faster by filling unit details from pasted information.

DONE

Special units now include a button that generates ready-to-post copy for Facebook and social media.

DONE

The thumbnail image frame and "confidential" text were removed from generated PDFs.

DONE

Generated PDFs now show a maximum of two images per page in the image grid.

DONE

Total amount is no longer adjustable by users.

DONE

Installments are applied automatically on the first day of the month.

DONE

A day value was added to the installment timetable to allow easier testing and control.

DONE

The back button now moves one step back instead of jumping too far back.

DONE

The light and dark theme toggle was adjusted to reduce screen flashing.

DONE

Login behavior was improved so users can get into the app faster.

DONE

Sales representatives cannot edit restricted unit controls or management-only actions.

DONE

Paid amount was removed. Down payment is now treated as the paid amount and updates when installments are paid.

DONE

Sales users cannot mark units as sold, on hold, or change unit status. They can still generate unit PDFs.

DONE

The manual "mark as paid" feature was removed from installments.

DONE

The app no longer signs users in automatically after they log out.
