

AI AUTOMATION SYSTEMS

Implementation pricing for the Facebook and WhatsApp automations.

Two controlled automation builds: one for scheduled Facebook posting from Leadra unit data, and one for Excel-driven WhatsApp outreach through an active WhatsApp Web session.

7,000 EGP

Facebook posting automation implementation.

8,000 EGP

WhatsApp outreach automation implementation.

15,000 EGP

Total implementation price for both automations.

AUTOMATION 01

Leadra to Facebook Posting Operating System

7,000 EGP IMPLEMENTATION

- Reads approved Leadra unit data without changing the Leadra codebase.
- Prepares Facebook-ready posts using real unit fields, images, and links.
- Supports controlled AI copy generation with traceable post records.
- Handles scheduled output, publishing fallback, monitoring, and duplicate prevention.

Payment 1

3,500 EGP to start implementation.

Payment 2

3,500 EGP on completion.

AUTOMATION 02

Excel to WhatsApp Outreach Automation

8,000 EGP IMPLEMENTATION

- Reads Excel rows, validates phone numbers, and generates internal customer IDs.
- Sends through an already logged-in WhatsApp Web session using a normal number.
- Supports fixed messages or AI-assisted wording variations.
- Updates Excel with Sent, Failed, Invalid Number, Not on WhatsApp, Skipped, or Retry.

Payment 1

4,000 EGP to start implementation.

Payment 2

4,000 EGP on completion.
